three of whom were captured soon
afterwards by different parties. One
of the men captured was Tom Dal-
ton, who was to be tried for the murder
of another negro at Obion. The two
who have so far escaped capture are
Bob Bennett, who was serving
out a fine of \$50 and costs for
gambling, and Will Burley, who was
under sentence to hang the third of
next month for the murder of D.
Flat near Newbern. The negroes
got into the corridor by sawing two
bars of the bath room and when a
white trusty entered to see what one
of them who had called him, wanted,
the others, who had lined up
near the door, jerked him in and
down, and then ran. The trusty
caught Burley and threw him on the
floor, but Bennett knocked him off
by striking him on the shoulder and
they fled together.

Yellow Fever Situation.

PADUCAH MAY GET STATE DEVELOPMENT CON- VENTION.

A telegram today from Secre-
tary D. W. Coons, of the Com-
mercial club, to Col. Bea Weils,
announces that with a little
help the Paducah delegates now
at Louisville stand a good
chance to land the next state
development convention for Pa-
ducah.

The Louisville papers seem to
regard Paducah's efforts with
favor, but Paducah will natu-
rally have a lot of other cities to
fight.

Col. Weils has not yet as-
certained whether anyone will
go up to Louisville or not. If
any of the members of the Com-
mercial club can be found who
can get away, a party will prob-
ably be made up in time to
reach Louisville tomorrow morn-
ing and get in the fight for
Paducah.

The Finish of Yellow Fever Now in Sight.

New Orleans, Oct. 11.—Little
more attention will be paid to
yellow fever here, as frost is re-
ported as far south as Fort
Smith, Ark.

tine will now rapidly disappear.

are being dismissed. Only
houses in which sickness really
prevails it, will be fumigated in
the future.

SECOND DAY'S WORK STARTED OFF WELL

Senator Blackburn Opened De-
velopment Convention.

Paducah Finds New Champion in
Louisville Girl Who Wears
Badge, "Paducah Next."

PADUCAH OPENS HER CAMPAIGN

Louisville, Ky., Oct. 11.—Senator
J. C. S. Blackburn called the second
day's session of the state develop-
ment convention to order at 10:15
o'clock. He said, "Questions of the
greatest moment have caused this
convention to be called. There is not
a subject of national interest that
affects the future of this grand old
commonwealth that is not scheduled
on this program. I congratulate this
convention, not alone because of its
size—but by long odds—the largest
convention ever held in behalf of devel-
opment—but on account of the large
numbers of farmers who have come
to participate in the deliberations."

The committee appointed by the
Paducah Commercial and Manufac-
turers' association to secure the next
state development convention for Pa-
ducah, began its campaign today by
enlisting the sympathy of Miss Beth
Higgins, stenographer for the Com-
mercial club, who is the only woman
on the convention floor.

Before the morning session began
W. P. Hummel, of Paducah, pre-
sented Miss Higgins with an American
Beauty rose and a badge bearing the
words, "Paducah Next." He made a
neat little speech, and was heartily
cheered by the other delegates when
Miss Higgins consented to wear both
the flower and the badge.

The other members of the Paducah
committee are David W. Coons, sec-
retary of Paducah Commercial club,
and J. C. Flournoy.

After Blackburn's address commit-
tees were named.

The executive committee from the
state at large is Hubert Veeland,
Frankfort; W. J. Stone, Kuttawa; H.
Parrish, Owensboro; J. D. Black,
Barbourville.

The first district member is A.
J. Decker, of Paducah, second district
J. L. Frankel, Sturgis. Third dis-
trict, S. Wells Covington, of Bowling
Green.

Gus Thomas, of Mayfield, heads
the resolutions committee from the
state at large.

W. P. Hummel, of Paducah, is the
first district member, J. W. Carter,
of Owensboro, second district, and
W. Cook of Bowling Green, third
district.

A resolution was adopted to make
the movement permanent and to
meet annually instead of biennially.
The remainder of the morning was
devoted to speeches. Among the
speakers was Henry George, of
Graves county.

James Duthum, pastor of the Free
Will Baptist church near Lexington,

Geo. Hughes and Tom Lattimer, whip-
ping both of them within less than
five minutes. Hughes' law was broken
by a right-hand swing from the
preacher.

Both young men were charged
with church disturbance, a practice
which Durham had been unable to
stop. After service the church was
burned down and Hughes and Lat-
timer were arrested, charged with ar-
son. They were jailed at Norman.

NO DIRECTORS

Elected by the Wabash Stockholders
Yesterday.

Toledo, Oct. 11.—No directors
were chosen at the annual meeting
of the Wabash railroad yesterday.

The sessions with the exception of
two brief recesses, lasted until 11:15
last night, almost the entire time be-
ing taken up by the examination of
proxies.

Although no figures have been giv-
en out by the inspectors of election,
it is believed the vote to be taken to-
day will show Gould has behind him
about \$22,000,000 bonds, and Ram-
sey \$2,000,000.

This makes certain that the six
men nominated by the Gould faction
as directors representing the bond
holders will be elected. These are
Russell Sage, Winslow S. Pierce, R.
C. Clowery, E. T. Wells, W. B. Saun-
ders and R. M. Galloway.

Ramsey has not shown sufficient
strength to enable him to hold his
seat as director, and it is generally
believed that he is weaker in stock
proxies than he is in bonds.

NO BREACH

NOW SEEMS LIKELY BETWEEN
CAR CO AND EMPLOYEES.

Several Discharged But the Compa-
ny Thinks It Was Not Because
They Joined a Union.

It is believed today that threaten-
ed trouble between employees of the
street railway company and the man-
agement, has been amicably adjust-
ed.

Recently, it is said, some of the
motormen and conductors organized
a union and it is claimed that since
then several employees have been dis-
charged, and they happened always
to be members of the new union.

D. Bourland, a motorman, was
yesterday discharged. He is alleged
to have gone to the front platform
of a Trumble street car No. 55 in
charge of Motorman Ed Russell, and
caused the attention of the latter to
be distracted for a moment, causing
a collision between the car and Row-
landtown car No. 66, at Sixth and
Madison streets, partly demolishing
the platform of No. 55 and necessitat-
ing its being sent to the shop for re-
pairs.

Bourland was discharged and the
management claims that three other
employees became displeased, and be-
cause of statements they made deri-
sive to the interest of the company,
were also discharged. The man-
agement denies that any of them
was discharged for belonging to a
union.

This morning a committee from
the street car employees' union called
on General Manager George C. Wal-
lace, but was not received.

Mr. Wallace stated:
"I am always ready to see individ-
ually all men employed by the com-
pany, but not any committee, and
not any man connected with any
union who is not in the employ of the
company. I have talked with my
men and assured them that any an-
nouncement they may have formed out
with the company; that as long as
they did good work, they would be
supported by the company and paid
well."

The rumored dissatisfaction
among the employees failed to come
out in my conference with my men
individually, and I think they see the
matter in the right light, and the
threatened breach here ends."

MRS. FOLZ HURT.

Fell Downstairs at Her Home at
Fourth and Jefferson.

While descending the stairs at her
residence at Fourth and Jefferson
streets, about 10 o'clock last night,
Mrs. Jessie Folz fell and was pain-
fully injured. She was attended by
Dr. J. D. Robertson. Mrs. Folz is ad-
vanced in years and she will be con-
fined to her home for several days
if not longer. No bones were frac-
tured but she was painfully bruised.

Test Meeting at Fulton.

Fulton, Ky., Oct. 11.—A big tent
meeting is now in progress in Carr's
Park, and great crowds are present
at every service. Rev. John H. Wil-
liams, an eloquent minister of the
Christian church, is conducting the
meeting, which will continue indefi-
nitely. The tent is filled to overflow-
ing at every meeting, and much
good is being done.

EAKER WON EASILY IN CONVENTION

The Promised Contests Failed
to Develop This Afternoon.

Final Vote Showed 37 for Eaker and
19 for Harry Allen—Others
Withdrew.

EAKER DECLARED NOMINEE

The Democratic county convention
to nominate a candidate for coroner
convened this afternoon at the court
house at 2 o'clock.

David Cross was elected perma-
nent chairman, and Tom Lovelace
secretary, and the first thing in or-
der was the report of the committee
on credentials.

The election of Cross was a victory
for the Eaker men, and in accord-
ance with their program.

The committee on credentials was
composed of: G. Singleton, Will No-
ble, Tom Ely, Hugh Stapp and M.
W. Clark.

After the committee report there
were only two nominations, Frank
Eaker and Harry Allen, the other
candidates, seeing that they were
finally defeated, withdrawing and
putting up Allen against Eaker.

The vote was 37 to 19 for Eaker,
and he was declared the nominee.

There was no contest of any de-
scription and the convention was a
quiet one.

AT HICKMAN.

Mass Convention Makes Nominations
For City Offices.

Hickman, Ky., Oct. 11.—An en-
thusiastic meeting was held in the
city hall for the purpose of nominat-
ing candidates for the office of may-
or, police judge and six councilmen.
The meeting was called to order by
Geo. L. Carpenter, and Allison Tyler
and Charles Perry were chosen as
chairman and secretary, respectively.
Thos. Dillon, Sr., the present incum-
bent, was nominated for mayor and
unanimously declared the choice of
the meeting. In a short speech Mr.
Dillon thanked the convention for the
honor conferred, saying he esteemed
it an additional mark of apprecia-
tion and an endorsement of his of-
ficial acts that he had been the unani-
mous choice of the convention.

Robert M. Metheny called the at-
tention of those assembled to an ac-
tion taken by a caucus of citizens of
east and west Hickman in regard to
candidates settled on by them con-
jointly, as follows: John Knoen,
Robert Donell, Geo. N. Helu, Ben G.
Hale, A. O. Caruthers, Ben Hertwick
and the nomination of all the candi-
dates named for councilmen was
made unanimous. J. W. Reney was
then nominated and chosen for police
judge.

AN EVEN BREAK.

Philadelphia Won From New York
By Score of 3 to 0.

New York, Oct. 11.—In the second
game in the world's championship
series the Philadelphia champions of
the American league defeated the
National league champions on the
Polo grounds.

The visitors put in their Indian
pitcher Bender against Iron Man Mc-
Ginnity.

Bender was excellently supported,
as was McGinnity for two innings,
but in the third inning Second Bas-
eman Gilbert made a costly error
which gave the visitors the lead
which they never relinquished.

McGinnity was relieved in the lat-
ter half of the eighth inning, Ames
going into the box.

Theatrical Notes

Wednesday night, "Uncle Dan'l," Saturday matinee and night "Hewe's Moving Picture Show."

Paducah theatre goers will very soon have an opportunity to enjoy one of the biggest things on the road, "Lady Teazle," with Miss Grace Van Studdiford in the title role. Yesterday's Globe-Democrat, along with other St. Louis papers, praises the production most highly. The Globe says:

"The gifts of Grace Van Studdiford are so superabundant that any production in which she appears must seem of secondary worth. The

lady in question has long been classed among the attractions that are perfectly delightful, but her revelations of herself at the Garrick last night, when she appeared in Lady Teazle, were surprising to even her most well informed admirers. Singing so ardent and the exercise of gifts in such abandonment of generosity are things that may be enjoyed only at intervals of seasons upon seasons. Miss Van Studdiford has grown in her beautiful art until there are not three light opera prima donnas in this country today who may be ranked with her. Such mag-

Don't Call a Tin Pan a Piano...

A tin pan and a piano are two different things according to our way of thinking. Don't come to us for a TIN PAN, we sell PIANOS, instruments that represent perfection in tone and real musical qualities. We refuse to handle anything else.

We do not sell merely "beautiful cases" that hide a multitude of defects. We protect you by our actual knowledge of pianos, and when you buy a piano of us you get a real musical instrument, not merely a piece of furniture. Your interests are protected when you buy of us. itude of voice combined with quality and clarity, is something altogether rare and thrilling. * * * Her "Lady Teazle" is a fine characterization, just as her singing is a wonderful delight. It is a splendid company. The "Sir Peter Teazle" of W. H. West, is painstaking and convincing; the "Sir Oliver Surface" of Charles Dungan a real bit of old English comedy; the "Joseph Surface" of John Taylor a delicate bit of villainy, and the "Charles Surface" of Harold Crane a genuine bit of large-hearted rascality. Miss Lillian Spencer in pretty "Marie," sung with such marked indecision that she seemed often to be off the key, yet she won general approval, while the songs which fell to the lot of J. Parker Coombs were rendered in a big voice which possessed millions of highness. Miss Della Niven, as "Lady Sneerwell," needed only a single where Miss Van Studdiford was not to be voted an exquisitely beautiful creature, with gifts of note. It is an excellent company, and a commendable production.

The company made a jump from New York to St. Louis by special train.

"Lady Teazle" was booked for the 16th—next Monday—but on account of the Girl and the Bandit the 18th, Lady Teazle has been given a later date.

Press agents say Louisville is the "easiest over," when it comes to working off press "smoke-ups" on the papers. They bite at most anything from a fake diamond robbery on down the line.

Miss Della Niven, who has been seen in a number of operas in Paducah, will be here shortly in "Lady Teazle."

Thomas Jefferson, a son of Joe Jefferson, has begun playing the role that made his father famous, "Rip Van Winkle," and made a pleasing impression on a New York audience Monday night.

The Herald Square Opera company played "The Mascot" to a matinee and "Fra Diavolo" last night, to small audiences at The Kentucky. It is a good little opera company, but hardly what the people of Paducah have been used to for the money.

Manager Thomas Roberts, of The Kentucky, has signed up for "Parsifal," which will be at The Kentucky Saturday, October 21. It is one of the biggest productions on the road, and is the same that is playing the big cities.

The engagement at The Kentucky for Saturday matinee and night of Lyman H. Howe's pictures, will combine the mirth of comedy with the culture of world-travel. It is one of that class of attractions which one attends always with that sure sense of knowing that every feature promised and every claim made will be "made good"—and more.

In the production of the beautiful rural comedy drama, "Uncle Dan'l" (or "A Messenger From Jarvis Section") which is at The Kentucky tonight the public will have an opportunity to become acquainted with Mr. Fred Wykoff who will be seen in the title role. No doubt there are many who will remember his splendid performance of the "Rube" in "Husky Izzy" when last presented here, as Mr. Wykoff's performance was pronounced one of the delightfully good things at that time. As "Uncle Dan'l" however, he presents a different style of "Rube." He is a big, good-natured, honest farmer, ever ready with a homely jest, yet withal he is a philosopher, and many of "Uncle Dan'l's" sayings will find a welcome with his audience as bare but honest truths. Specialties and a quartette will add to the pleasure of the occasion.

Disastrous Hand Shaking.

Hopkinsville, Ky., Oct. 11.—G. L. Campbell, Republican nominee for county clerk in this county, is suffering greatly from a very sore hand, which was caused in a very unusual manner. Several days ago Mr. Campbell scratched his hand on some barbed wire, the wound being made on the back of the hand. Since that time he has been vigorously prosecuting his campaign, and the many hand-shakes which he has given his constituents irritated the wound, as it was located just right for the thumb of the person with whom he was shaking hands to press upon it. For a few days it was thought that serious consequences would result from the inflammation, but it is now beginning to give way to the remedies which have been applied.

Medical Society Meets.

The McCracken County Medical Society will hold its regular meeting tonight with Dr. W. J. Bass, and papers will be read by Drs. Bass and Vernon Hlythe. It will be the first of the city sessions for the winter.

CHILLY WEATHER UNPREPARED FOR

In Several of the Public School Buildings.

Pupils Exercised to Keep Blood Circulating—Fire Escape is Causing Much Trouble.

BOYS EASILY BREAK INTO IT.

The first touch of real winter weather today was felt by the school children possibly more than any one else, for there were no fires in any of the schools and the temperature in some of the rooms was too low for comfort.

The suddenness with which the chilly weather came found several teachers unprepared and this morning the furnaces in the High school, Franklin, white, and the Garfield and Lincoln colored, schools were cold. In the High school building the thermometers went down as low as 60 degrees and pupils were taken through exercises to keep the blood circulating.

Some parents refused to permit their children to attend until assured that the furnaces were started and that their children would be comfortable. Consequently the attendance in the primary departments was somewhat decreased today.

Supt. Leff gave orders for the janitors to look especially to the furnaces and no more trouble is expected after today. In one building where the work seems too hard for the janitors, a change will likely be made—the janitor being transferred to another school and a younger man placed in his position.

The school authorities are preparing to take the Bow Wire Works, of Louisville, to task on account of the spiral fire escape put up at the High school.

The wire works guaranteed that the fire escape was burglar proof—that is that it could not be entered from the outside. The boys who have been making this a playground, have devised a means, it is alleged, to gain entrance and can go at will all over the building even when doors and windows are locked and bolted. They drive a wedge in the space at the bottom of the fire escape between the two doors and spring the door open with a quick jerk. The boys have been guilty of much vandalism, the result of their discovery of a way to gain entrance to the building, through the fire escape, and the authorities are preparing to have them arrested.

The matter will be brought before the school board and the conditions laid before the manufacturers. The authorities want the fire escape arranged so that it will be impossible to gain entrance from any way other than the right way.

Supt. Leff is still making his inspections and finds that the schools are in excellent condition and that the teachers and pupils are taking a lively interest in the work with better results. He will finish his inspection in a day or two and will include the result in his monthly report to the board.

HEATING PLANT

Has Not Yet Been Started at the I. C. Passenger Station.

Although cold weather is approaching, nothing has been done towards installing the new heating plant in the local I. C. depot. The order for installation came several weeks ago, and all plans were finished, measurements made and the matter ready for the hands of the contractors. The contract was let but annulled because of a change suggested, and as it is, the matter remains in the hands of the higher officials at Chicago. The present plant is inadequate, and the public is anxiously waiting, as is the local corps of depot employees, for something to be done before severe weather sets in.

Daily Thought.

"This life has its own recurring
day of judgment in the everlasting
now."ANOTHER SET-BACK FOR MAYOR
DUNNE.

Mayor Dunne, of Chicago, has had
nothing but trouble over his munici-
pal ownership agitation. His latest
was a humiliating throw-down by the
council. A Chicago dispatch says:

"Mayor Dunne, the first American
apostle of municipal ownership and
operation of street railway systems,
was given the hardest blow tonight
administered by the city council
against a city executive in years.

"The result of the action taken to-
night, if it means anything at all,
means that the mayor's contract
plan for the solution of traction con-
troversy is doomed to overwhelming
defeat when the question comes up
on its merits, if it ever does.

"Mayor Dunne gave evidence of his
determination to run roughshod over
the will of the council when he had
"produced an order, instructing the
local committee on transportation to
report out his contract plan at the
next meeting of the council and to
cease all negotiations with the exist-
ing traction companies looking to an
extension of franchises.

"Aldermen Callahan moved that
this order be referred to the commit-
tee on transportation. Mayor Dunne
insisted that this motion prevailed,

tion out of order. There was an ap-
peal from his decision; and the coun-
cil refused to sustain the mayor by a
vote of 41 to 22. Thereupon the
friends of the mayor asked for a sus-
pension of the rules that the order
might be placed on its passage. This
would have required a two-thirds af-
firmative vote, but instead of that
the roll call showed only eighteen
members with the mayor and forty-
five against him."

THE SECRET BALLOT.

At the approaching election the
people will be called on to vote upon
an amendment to the constitution
providing for a return to the viva
voce system of voting, says the O-
wensboro Inquirer. It is not believed
that the people of Kentucky are so
foolish as to take this backward
step. The viva voce system of vot-
ing was devised by the convention of
1871 as a means of staying the tide
which was rising against slavery. It
was reasoned that, as a man who
was known to be opposed to slavery
was ostracized, few would have the
courage to vote their sentiment on
the slavery question, when the vote
was a matter of record.

The constitution itself went on
record on the slavery question in an
article which was the main argu-
ment for revision fifteen years ago.
After it had served its purpose, on
the slavery question it became a
powerful lever in the hands of the
politicians and election bribers. The
buying of votes in elections was open
and notorious. Men went around
the polls with their pockets full of
silver money, jingling the coin and
making open offers for votes. When
a seller was found he was taken to
the polls and after having his vote
recorded, he was paid his money,
frequently in the presence of the
officers. The secret ballot stopped
this practice at least.

The change is advocated by the
men who attempted to steal the
state election in 1899. They found
that the secret ballot and its safe-
guards were too much for them, and
they wanted something that they
could handle. They also wanted
something by which they could ter-
rorize the voter, by which the em-
ployer could bulldoze his employes
and make them vote at his dictation,
something by which the free expres-
sion of the will of the dependent
voter could be stifled. The people
are against the change, but if they
do not vote overwhelmingly against
it they will be counted for it. Let
everybody vote to kill the iniquity
of the viva voce vote.

Secretary Root has evolved a new
idea to preserve peace among nations.
It is closer acquaintanceship. He said
Monday in an address at Washing-
ton: "I believe almost all war and
bitterness between nations result
from misunderstanding and from a
failure of the people of one country
to appreciate the people of another.
The cure of national misunder-
standings is acquaintance, the cultivation
of good relations and friendship
among the peoples of the nations."

Every republican should register
next week. Tuesday is supplementa-
ry registration day, and it is desired
that every republican register. Hun-
dreds did not register on the regis-
tration day, Tuesday a week
ago, and if they expect to vote they
must register next Tuesday. If any
of them are away from home very
often, they should make arrange-
ments to be here next Tuesday, at
least.

The Chicago papers are excited
over the fact that a man who is a
candidate for the gallows has an os-
tensible neck which in all probability
could not be broken. They conse-
quently claim there is no use in
hanging him. In their hurry the pa-
pers of the Windy City seem to over-
look the fact that he might be stran-
gled to death.

Central line between Mattoon and Ev-
ansville for the purpose of making it

CHIEF JUSTICE LEWIS' MEMORY.

Honored by Eloquent Tributes in
Court of Appeals.

Frankfort, Ky., Oct. 11.—Judge
W. H. Holt, former judge of the court
of appeals, presented the memorial
of the late Chief Justice Lewis, of
this court, at the morning session
yesterday. The memorial is signed
by Judges W. S. Pryor, chairman;
W. H. Holt, B. L. D. Guffy, J. D.
White, George Dubelle, J. H. Hazel-
rigg and A. R. Barnum, former asso-
ciates. Judges Holt and Hazelrigg
spoke on the life and character of
Judge Lewis.

Illustrative of Judge Lewis' char-
acter, Judge Holt related that he had
been told by an officer of the "Or-
phan Brigade" that upon one occa-
sion Judge Lewis when a command-
ant unintentionally done a private a
wrong; that instead of merely apolo-
gizing to him, Judge Lewis called
out the whole command, and apolo-
gized to him in the presence of all of
them, thus showing the magnanimity
of the man.

CHRONIC CATARRH CURED.

Specialists Agree That This Disease
Asthma and Bronchitis Are
Easily Cured.

New York, Oct. 11.—The latest
report from Vienna's noted special-
ists states that asthma, catarrh and
bronchitis are readily conquered if
patients will fortify their system. In
advance of the severe winter sea-
son, by taking the Austrian drug,
Ascaton. If treatment is commenced
at once, while mild climatic condi-
tions prevail, a speedy cure will fol-
low.

The dose is only seven drops and
pleasant to take. Every effort is be-
ing made to stamp out these diseases
and to this end the Austrian dis-
pensary, 32 West 25th street, New
York City, will send a trial bottle
of Ascaton to every sufferer who
writes for it.

A Prospective Opera House.

Hickman, Ky., Oct. 11.—That
Hickman is handicapped by inade-
quate accommodations for good the-
atrical attractions is openly com-
mented upon by the amusement-lov-
ing people. The City Hall, while it is
commodious enough at present to
accommodate a fair sized audience,
is poorly arranged for viewing the
stage. Prominent and influential citi-
zens have been approached regard-
ing a new structure that would not
only be more commodious, conveni-
ent and comfortable with ample
stage room and scenery, but an
ornament to Hickman and her enter-
prise. The committee was heartily in
favor of the movement. There are
two ideal sites that it is believed
can be secured, and with proper
management and the right men to
promote the enterprise, an opera
house will grace the city.

Last Hope Vanished.

When leading physicians said that
W. M. Smith, of Pekin, Ia., had in-
curable consumption, his last hope
vanished; but Dr. King's New Dis-
covery kept him out of his grave.
He says: "This great specific com-
pletely cured me, and saved my life.
Since then, I have used it for over
10 years, and consider it a marvelous
throat and lung cure. 'Stetely' sci-
entific cure for Coughs, Sore Throats,
or Colds; sure preventive of Pneumonia.
Guaranteed, 50c and \$1.00
bottles at W. H. McPherson's drug
store.

More Money Is Needed.

Hickman, Ky., Oct. 11.—The plan
for another railroad into Hickman
has met with some success. Of the
\$15,000 required, \$10,000 has been
secured. No railroad was ever pro-
posed with more promise of suc-
cessful operation. The resources of
the country are amply sufficient to
make the road profitable if it should
never become part of a great trans-
continental system. The people are
only asked to buy bonds of a rail-
road company, which, if successful,
will be worth par. This will get di-
rect railroad connection from Hick-
man to St. Louis.

Another "Unloaded" Pistol Tragedy.

Emmance, Ky., Oct. 11.—Charles
Highchew, twenty years old and em-
ployed on the farm of Mrs. George
Thomas at Reicheheim, accidentally
shot and killed himself in his room.
He had bought a new revolver and
was explaining to his roommate that
when the hammer was in a certain
position it was impossible to pull the
trigger. To make the point more em-
phatic he placed the muzzle of the
weapon over his heart and pulled the
trigger. On the third demonstration
the shell exploded, the bullet pierc-
ing his heart and going clear through
the body.

MR. HARAHAH HERE

SHORT TIME TODAY

Went to the Hopkinsville Dis-
trict on Inspection Trip.The Arrival of the Monster Engines
on This Division Will Reduce
Number of Crews on I. C.

FIRST ENGINES DUE NEXT WEEK

Mr. W. J. Harahan, fourth vice-
president of the I. C. road, of Chi-
cago, passed through the city this
morning on route to Hopkinsville on
an inspection trip.

Mr. Harahan left Paducah in a
special train, remaining here long
enough to change engines. He came
from Monrovia, Ill., and is expected
back today or tonight. It is presu-
med his visit to this territory is con-
nected with the leasing of the Ten-
nessee Central by the I. C. and the
improvements being made on the
Hopkinsville and Evansville districts
of the road. The I. C. is expending
much money in regrading and bal-
lasting the main line on these dis-
tricts and is getting the road bed to
be best shape possible for increased
and faster traffic.

The big 800-class engines recently
ordered for the Louisville and Padu-
cah districts of the I. C. for freight
service, are on their way and the first
consignment is expected here next
week.

In speaking of the new engines, a
well known engineer stated: "This
means that the crews running on the
district affected will be cut half-
that is where there are ten smaller
engines working, it will require but
five of the big ones, because the big
ones can do twice the amount of
work. This will consequently mean
that the crews on the smaller en-
gines will be taken off as the en-
gines arrive. It is an economical
move for the road."

Twenty-five of the big engines will
replace 50 smaller engines and the
trains which now come in will be
double in length. The big engine,
No. 812, comes in daily with a dozen
loads more than any other engine on
the division can pull. The crew is
shifted about so that all engineers
get a chance to handle the monster
and become acquainted with the
work.

MAD DOG RAN

OFFICERS CALLED TO DELOGGE

Frightened at the Animal.

Officers Singery and Hurley had
an unusual experience yesterday
with a mad dog. They were in duty
on Jackson street when they receiv-
ed a message to come and kill a mad
dog in that locality. They jumped
into a buggy and hastened to the
place, finding a group of excited wo-
men on the front porch.

They said the dog was in the coal
house. He jumped in through the
alley window they said, and they
were all afraid he would get out and
bite some one. It happened that there
were no "men folks" about, and one
of the ladies was delightfully frank
enough to say that they were glad of
it, because they "didn't want their
husbands to get hurt." This didn't
offend the patrolmen, however, be-
cause they are used to being called
on to do things that are disagree-
able to other people or that other peo-
ple are afraid to do so they promptly
hied themselves to the coal house
and began to bombard the canine in-
side. He was a sleek animal, howev-
er, and wouldn't get where they
could get a good shot at him. This
indicated that he was not as "mad"
as the ladies thought, and Officer
Singery finally became exasperated,
and throwing open the door and
rushing inside, he quickly seized the
dog, which was a cross between a
bulldog and a common cur, around
the neck with a strangle hold and
threw him bodily through the win-
dow.

The dog hit the ground "m-r-
m-nd" and the officers not being
good with shots he is still alive. The
officers think the dog was only
frightened or sick, causing him to
roar at the mouth and frighten
those who saw him.

TO MAKE A TEST

Of Mr. Sam Foreman's Patent to
Prevent Wrecks.

Mr. Sam Foreman, the Paducah
inventor, has received transportation
from a railroad to St. Louis where a
test of his appliance for preventing
wrecks is shortly to be made.

Mr. Foreman stated today that
there are several railroads waiting
to make the test but he has one, and
one of the biggest in the country
which he has given the exclusive
right, but the test will be seen by
representatives from other roads
who are bickering for the appliance
rights if proven successful.

Mr. Foreman will not go to St.
Louis soon to see to see the test but
will try to secure the test for Padu-
cah, desiring it to be made on the
I. C. where the people can see it
her. It is a sure thing, he thinks,
and is confident that it will prove
successful in every detail when test-
ed. It means a matter of short time
before the patent will be in use. Mr.
Foreman thinks, after the test is
made.

Cheated Death.

Kidney trouble often ends fatally,
but by choosing the right medicine,
E. H. Wolfe, of Bear Grove, Iowa,
cheated death. He says, "Two years
ago I had Kidney Trouble, which
caused me great pain, suffering and
anxiety, but I took Electric Bitters,
which effected a complete cure. I
have also found them of great bene-
fit in general debility and nerve trou-
ble, and keep them constantly on
hand, since, as I find they have no
equal." W. H. McPherson, druggist,
guarantees them at 50c.

Mr. C. H. Orr, of R. F. D. No. 5,
Mayfield, Ky., was in the city today
and had an interesting curiosity in
the shape of a provost guard pass is-
sued in Paducah on October 7th,
1862, to E. Lynn, to pass through
the federal lines from Paducah to
the county. It was good for thirty
days, and was countersigned by S. H.
Perrell. Mr. Orr has a large col-
lection of curiosities at his home in
Graves county, including one of the
finest collections of Indian relics in
this part of the state.

WHAT IS

POG-ARY?

Time for Toppers

"Overcoats" is not the term for these jaunty
garments. It gives no suggestion of their snappy
style and elegance. We have them in all the fa-
vored fabrics and modish cuts. Our top coat are
made by expert tailors. Even the man who sews on
buttons is an expert in his line; the one who shapes
the collar another expert—ALL EXPERTS.

And the long coats. Many men prefer the long,
gracefully-draped lines of the Cravanette, with its
air of quiet goods taste. We mean "CRAVA-
NETTE," too, for we are exclusive agents in Padu-
cah for the original Priestley's Cravanette.

Just a Few of Our Many Good Things

If you have called, you are already familiar with the sterling values which have attracted Paducah housewives to our store in such large numbers during the GREAT CLOSING OUT-AT-COST SALE. But we are by no means sold out. Just to show you what values we are offering in American made china come in and see the handsomely decorated 35c salad bowl you can get for 18c. We have lots of these now, as our entire stock of them has been transferred from the wholesale to the retail department. But they won't last long at these prices. So come in early. Some cake plates in the same class which have always sold for 50c, now 33c.

We were unable to cancel the orders for many of the rare and beautiful pieces of hand painted French, Japanese and Austrian china (in sets and open stock, too,) which were especially imported for the benefit of discriminating buyers at Christmas time. As there are no exceptions to our sell-at-cost rule, you have an opportunity to buy for absolutely what we paid the manufacturer. And they are exclusive patterns, too. If you buy a set no one in Paducah or anywhere else will have one just like it. That's always a pleasant feeling to the woman who loves beautiful china. And remember that it's not "too expensive to use." Come in and see it, if only for the pleasure it will give you.

Edward Childers, with Frank Bowman and a score of other young people, had spent the day at a picnic. Returning home this afternoon, Childers and Bowman got into a heated argument over some trivial matter, which lasted until they arrived near the home of Bowman. There it was resumed more bitterly. Bowman's father joining in the argument. The talk became so violent that Bowman, Sr., finally approached Childers in a menacing attitude. The latter fired at the older Bowman with a 22-caliber rifle, the bullet causing instant death. Young Bowman rushed into the house and returned with a rifle. The bullet missed its mark, striking Miss Childers and inflicting a mortal wound. The two families are prominent. Young Childers surrendered.

I have had kidney trouble more or less for fifteen years. After trying a number of remedies that gave me very little relief, if any, I got a box of Doan's Kidney Pills at Alvey & List's drug store and began to take them as directed. I found them to be the very thing for my trouble. In a few days I noticed a great change in my condition. Before taking the pills my rest at night was greatly disturbed, but now I can go to bed and rest as peacefully as anyone. I give all the credit for this to Doan's Kidney Pills."

OLD FURNACES ARE TO BE BLOWN IN SOON

Are on Hillman Estate and Have Been Idle 22 Years.

About 250 Men Now at Work On Them and They Will Be Blown In About Nov. 10.

PADUCAH WORKMEN THERE.

Mr. Mike K. Knowles and son, Bert Knowles of the Jackson Foundry and Machine Co., of this city, went to Grand Rivers this morning and from there to the Center furnaces, a distance of about 18 miles, to place the furnaces in shape for operation.

Several months ago it was announced that these furnaces would be placed in operation again after lying idle for more than 22 years. They originally belonged to the Hillman estate, the estate having as many as 47 acres of fine mineral land. The furnaces went to waste and the new company which acquired the furnaces—Dixon, White & Co., had to put in new boilers and a great deal of new machinery. Mr. Knowles and son are working on the machinery.

There are about 250 men working on the furnaces now and it is estimated that the furnaces will be ready for blowing in on the 10th of next month. The furnaces make what is known as cold blast charcoal iron, a higher grade of iron than was manufactured in Paducah, and at Grand Rivers furnaces. This class of iron is used in rolling mills.

SLEETH'S DRUG

THE ROOT OF THE MATTER

He Cured Himself of Serious Stomach Troubles, by Getting Down to First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax, feigned in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability making it impossible to apply himself to his daily business and finally deranging the kidneys and heart.

In his own words he says: "I consulted one physician after another and each one seemed to understand my case, but all the same they each failed to bring the return of my former digestion, appetite and vigor. For two years I went from pillar to post, from one sanitarium to another. I gave up smoking, I quit coffee and even renounced my daily glass or two of beer, without any marked improvement."

"Friends had often advised me to try a well known proprietary medicine, Stuart's Dyspepsia Tablets and I had often perused the newspaper advertisements of the remedy but never took any stock in advertised medicines nor could believe a fifty-cent patent medicine would touch my case."

"To make a long story short I finally bought a couple of packages at the nearest drug store and took two or three tablets after each meal and occasionally a tablet between meals, when I felt any feeling of nausea or discomfort."

"I was surprised at the end of the first week to note a marked improvement in my appetite and general health and before the two packages were gone I was certain that Stuart's Dyspepsia Tablets were going to cure completely and they did not disappoint me. I can eat and sleep and enjoy my coffee and beer and so on, would suppose I had ever known the horrors of dyspepsia."

"Of friendly curiosity I wrote to the proprietors of the remedy asking for information as to what the tablets contained and they replied that the principal ingredients were: active peptic (improvement test), milk, bile and other natural digestive, which digest food regardless of the condition of the stomach."

The root of the matter is this, the digestive elements contained in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system to receive the nourishment which can only come from food. Stimulants and narcotics never give real strength, they give half ones strength, invariably followed by reaction. Every drop of food, every nerve and tissue is manufactured from our daily food and if you can insure its proper assimilation and assimilation by the regular use of so good and wholesome a remedy as Stuart's Dyspepsia Tablets, you will have no need of nerve tonics and stimulants."

Although Stuart's Dyspepsia Tablets have been in the market only a few years, probably every druggist in the United States, Canada and Great Britain now sell them and consider them the most popular and successful of any preparation for stomach troubles.

Raffles, The Amateur Cracksman

By E. W. HORNING

THE GIFT OF THE EMPEROR

No. 6 of the Series

(Continued From Yesterday.)

A tender awaited us at Southampton. Raffles was not on board, nor did I really look for him till we reached the liner's side, and then I looked in vain. His face was not among the many that fringed the rail; his hand was not of the few that waved to friends. I climbed aboard in a sudden heaviness. I had no ticket or the money to pay for one. I did not even know the number of my room. My heart was in my mouth as I waited a steward and asked if a Mr. Raffles was on board. "Thank heaven—he was!" But where? "The man did not know," was plucked on some other errand, and shouting I must go. But there was no sign of him on the promenade deck and none below in the saloon. The smoking room was empty but for a little German with a red mustache twisted into his eyes. Nor was Raffles in his own cabin, whether I inquired my way in desperation, but the sight of his own name on the baggage was certainly a further reassurance. Why he himself kept in the back ground, however, I could not conceive and only sinister reasons would suggest themselves in explanation.

"So there you are! I've been looking for you all over the ship!"

Despite the graven prohibition I hurried the bridge as a last resort, and there indeed was A. J. Raffles seated on a skylight and leaning over one of the officers' long chairs, in which reclined a girl in a white dress and a dark hair and rather remarkable eyes. So much I noted as he rose and smiled at me. Thereupon I said that I was looking for him, and he said that he was looking for me.

"Why, Raffles?" cried Raffles. "Where have you been?"

I answered something as to please my friend.

"And are you coming to this ship?"

And to Naples too? Well, upon my word! Miss Werner, may I introduce him?"

And he did so without a blush, do- ing me as an old schoolfellow whom he had not seen for months with willful circumstance and grateful detail that filled me at once with confusion, suspicion and revolt. I felt myself blushing for us both, and I did not care. My address utterly deserted me, and I made no effort to recover it, to carry the thing off. All I would do was to mumble such words as Raffles actually put into my mouth, and that I doubt not with a thoroughly evil grace.

"So you saw my name in the list of passengers and came in search of me? Good old Raffles! I say, though, I wish you'd share my cabin. I've got a beauty on the promenade deck, but they wouldn't promise to keep me by myself. We ought to see about it before they shove in some alien. In any case we shall have to get out of this."

For a quarter-master had entered the wheelhouse, and even while we had been speaking the pilot had taken possession of the bridge. As we descended, the tender left us, with flying handkerchiefs and shrill goodbys, and as we bowed to Miss Werner in the promenade deck there came a deep, slow throbbing underfoot and our voyage had begun.

It did not begin pleasantly between Raffles and me. On deck he had overborne my stubborn perplexity by dint of a forced though forcible joviality. In his cabin the gloves were off.

"You idiot," he snarled, "you're given me away again!"

"How have I given you away?"

I ignored the separate insult in his last word.

"How? I should have thought any clod could see that I meant you to meet by chance!"

"After taking both tickets yourself?"

"They know nothing about that on board. Besides, I hadn't decided when I took the tickets."

"Then you should have let me know when you did decide. You lay your plans and never say a word and expect me to tumble to them by light of nature. How was I to know you had anything on?"

I had turned the tables with some effect. Raffles almost hung his head.

"The fact is, Raffles, I didn't mean you to know. You—you've grown such a plump rabbit in your old age."

My nickname and his tone went far to mollify me. Other things went farther, but I had much to forgive him still.

"If you were afraid of writing," he pursued, "it was your business to give me the tip the moment I set foot on board. I would have taken it all right. I am not so vengeful as all that."

Was it my imagination or did Raffles look slightly ashamed? If so it was for the first and last time in all the years I knew him, nor can I swear to it even now.

"That," said he, "was the very thing I meant to do—to lie in wait in my room and get you as you passed, but"

SECY COONS ON HAND.

He Will Make an Effort to Land State Development Convention For Paducah.

Yesterday's Louisville Times says: "Secretary D. W. Coons, of the Paducah Commercial club, was an early arrival at headquarters. He lost no time in booming his native city for the meeting place of the convention in 1906. He said that Paducah wanted the convention next year and wanted it bad. Twelve delegates from that city will mingle among the other delegates and elect one for Paducah."

The Post says: Louisville has here before been alone in the desire to secure the renewals of the convention, and the expressions of interest from other cities show that that value of the gathering is being recognized more and more fully by the business men all over the state. The effort to secure next year's convention for Paducah is being made by Mr. D. W. Coons, secretary of the Commercial and Manufacturers' Association, who arrived this morning and began distributing literature advertising the advantages of the attractive metropolis of McCracken. Eleven more Paducah business men are expected to arrive in a body this evening, among their number being Mr. J. C. Flournoy, whose paper on "Why Kentucky Should Become a Great Manufacturing State," is looked forward to as one of the notable addresses of the three days' session.

MANY MEN

Can Be Used in South When Quarantines Are Relaxed.

When the quarantines are raised in the south there will be work for every one in the railroad business, and a general rush for the south. Col. John Trantham, who is chairman of the grievance committee of the local Brotherhood of Railway Firemen, stated yesterday that he had letters from several roads in the south saying that they could use every intelligent man who would come down and was willing to work. All work is tied up now because of the quarantines, but the rolling stock is said to be in good working order, and ready to start at a moment's notice. On account of the accumulated business the work will be steady for many months.

KICKED IN FACE.

Elston Scott, Colored, Painfully Injured by a Mule.

Elston Scott, colored, was kicked in the face by a male at Isaman's wagon yard, at Second and Washington streets, last night and badly, but not seriously hurt. He was attended by Dr. J. D. Robertson. He is an employe at the wagon yard and was working near the animal when kicked.

Stripped Off a Moving Car.

Wes Price, colored, of Birmingham, Ky., deliberately stepped off car No. 95, at Sixth and Elizabeth streets yesterday afternoon while it was going at full speed, and fell on his head. He was picked up and found to be badly injured, and is confined at the home of a colored woman near the Chubb and Murray blockyard. The woman had him carried to her house thinking he was her son and when she found out her mistake the man's condition was too serious to permit his being moved. The man aboard the car seemed to be drunk or under the influence of some sort of drug, as he had made several attempts to get off the moving car and was stopped by the conductor. Motor-man Jeff Hollowell and Conductor Yates were in charge of the car.

In great attempts it is glorious even to fail.—Longinus.

DAINTY DEMONA

WOMAN SEEN HERE RECENTLY GETS IN TROUBLE.

Arrested at Paris, Ky., On a Charge of Grand Larceny.

The following from the Hopkinsville New Era will be of interest in Paducah, where the principal in her stunts at the recent carnival was seen by many people:

Miss Madeline McIntyre, otherwise known as Dainty, Desperate, Death-Defying Demona, or the girl who looped-the-loop in a ball with the Parker Carnival company last week, was brought back to Hopkinsville last night by Officer Booth Morris from Paris, Ky., on a warrant sworn out by W. A. Snider charging her with grand larceny in the theft of a tiger foot mounted diamond ring.

Miss McIntyre left the Parker Co. here last Friday without giving any warning of her intention, and went to Paris, where she joined the Robinson Carnival Co. When she left she is alleged to have taken with her a diamond ring which had either been given or loaned to her by Snider and at once swore out a warrant for her arrest. Officer Morris reached the city with her last night and instead of taking her to the city lockup she was placed in a room at Hotel Latham.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Billard's Snow Liniment saved my life. I was under the treatment of two doctors and they told me one of my lungs was badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Billard's Snow Liniment. The first application gave me great relief; two fifty-cent bottles cured me sound and well."

It is a wonderful medicine and I recommend it to suffering humanity. Sold by Alvey & List.

GENERAL GRANT FOR CANTEN.

Declines It to Be the Lesser of Two Evils.

Cincinnati, Oct. 11.—General Frederick D. Grant, who with his son Lieutenant U. S. Grant, has been here attending the meeting of the Army of the Tennessee, said:

"Yes, I favor the army canteen. The army canteen is the selection of the lesser of two evils, as it were. The greater evil is the outside rumshops which surround army posts. I believe that if the soldiers will drink they should drink liquor that is good, and the object of the army canteen is to furnish soldiers with good liquors and to keep them out of the rumshops, which sell spirits of an inferior and dangerous quality. The majority of the evils in the army can be traced to drinking, and I would say, the drinking of bad whiskey."

Cures Winter Cough.

J. E. Gover, 101 N. Main street, Ottawa, Kans., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stops the cough, and she is able to be up and well." 25c, 50c and \$1.

President Roosevelt's Party.

C., Oct. 11.—The secretary to the president, in a letter received today by the state fair authorities, says that in the party with President Roosevelt on his visit to Raleigh on October 19 and on his southern trip will be Mrs. Theodore Roosevelt and maid, Secretary Loeb, Surgeon General Hickey, Mrs. A. C. Latta, John L. McGraw, John McIlenny, John L. Greenway, L. S. Brown of the Southern railway, representatives of three press associations, one photographer, two secret service men and two messengers. Mrs. Roosevelt will accompany the party as far as Atlanta, and Governor H. B. Glenn of North Carolina, will be with the party in this state.

JACK FROST HERE

LAST NIGHT WAS QUITE CHILLY
AND THIS ICE WAS FOUND.

Farmers and Gardeners Do Not Think
the Frost Did Any Damage
to Vegetation.

Jack Frost has arrived. His first visit of the season came last night. In some parts of the county frost was reported quite heavy, but harmless, while in other parts it was light. Col. Bud Dale, proprietor of the New Richmond Hotel, heard from Grahamville and it was reported that the frost there was heavy.

Mr. E. B. Englert, of the St. Johns neighborhood, eleven miles southwest of Paducah, says he found this ice in his house trough about 1:30 a. m. He started to turn on the water when he put his hand in the trough and discovered the ice. Mr. Englert says there was also a good frost in his section.

Mr. Ned Baker, a linotype operator at the Sun office, also found ice on his walk leading to the house early this morning and gathered some of it up and took it in the house.

The farmers of the market this morning said that vegetables will not be damaged much, if any.

The lowest temperature last night was 45 degrees by the government thermometer, which is rather high for a frost.

Observer Bornemann stated this morning that a heavy frost usually follows the first frost and tomorrow morning it will likely come. He said that the average date for the first frost in this section is October 19. Last year it came on October 22 and there was a killing frost the next day. The lowest the mercury went during the month was 34, which was on the 27th.

Mr. Ed Hangan, superintendent of the steam heating plant, is making an inspection of the system and finds everything in good shape. Judging from the inclination of public in general, there will be much more steam heat utilized this winter than heretofore.

150 ITALIANS

Are At Work Ballasting the Illinois
Central at Henshaw.

Henshaw, Ky., Oct. 11.—One hundred and fifty Italian laborers are here to aid in the completion of ballasting the I. C. railroad. Mr. Jack Earl is building camps and shacks to house them and with the already large force this will make quite a little army of laborers for Henshaw. The little town of houses are made portable, or at least can be torn down and removed quick and at little expense. Mr. Earl, who is foreman of the carpenter gang, is making their quarters look like a little town, with its streets and alleys, and altogether has the appearance of business. While this seemingly large force is arriving at Henshaw there will be other points where they will be distributed. The company did not take to the idea of importing this kind of labor, but the necessity of completing the ballasting compelled them to resort to this last means.

ON A SHANTY BOAT.

Spurious Dollars Are Believed to Be
Manufactured.

Chief of Police James Collins has notified Mart Egan, chief of police at Cairo, that counterfeit dollars are in circulation here and informed the Cairo chief that he believed they were being made on a houseboat somewhere between Paducah and Cairo and asked the aid of Chief Egan in winning down the counterfeiters.

As stated in the Sun yesterday afternoon several of these dollars, which are poor imitations of the genuine silver dollar, have been passed on local merchants and are in possession of Chief Collins.

Detectives Moore and Baker are at work on the case and there may be developments in a few days.

Died in California.

He had been in failing health for several months. His family and his father and daughter, Mrs. Anna McGuire, of Farmington, Graves county, accompanied him to California. Mr. Arnold had been living in Dawson, where he had been city judge for a good many years. He leaves a wife and one son. His remains were interred at Pasadena.

Celebrated Her 96th Anniversary.

Mrs. Nancy Haynes, of Benton Ky., Monday celebrated the ninety-sixth anniversary of her birth. She is still in good health for one of her age. She is widow of the late Jarvis Haynes, a well-known resident of Marshall county, who himself died not long ago at the age of 85 or thereabouts.

COLE'S ORIGINAL HOT BLAST=THE CLEAN STOVE

Cut No. 1

Shows how Dustless Ash Cover is used—the modern method. (Patented)

Cole's Original Hot Blast is the cleanest stove ever placed on the market. Our method of removing ashes shown by cut No. 1, is perfectly clean and overcomes the many objections to the ash pan used in other stoves. The elbow draft casting with its upward slant allows the empty coal-burner to be set under the draft so that no ashes or coals can be spilled on the floor. Our patented dustless ash cover shown by illustration is for use with Nos. 122, 152, 182 and 192 stoves. It keeps away particles of dust in removing ashes, a feature that will be appreciated by every housekeeper.

The ash pans of other stoves are too small to hold a full 24 hours' accumulation of ashes. They are usually over-filled when removed, and the ashes in the bottom of the stove are dragged out on to the carpet, as shown by cut No. 2. You are all fam-

DUST PROOF

iliar with the ash pan method, and have, no doubt, gone through the process many times of spreading a newspaper or cloth under your stove every time the over-filled pan is removed.

The ash pan is not cool, dirty, but is a great evil in stove construction. It adds a door and joints which can be made only temporarily air-tight by the use of stove putty. These joints open after a few weeks' use, rendering ash pans worthless as fire keepers. It makes them fuel-brokers rather than fuel-savers. The ash pan and the shield for guiding ashes into the pan, also prevent base heat.

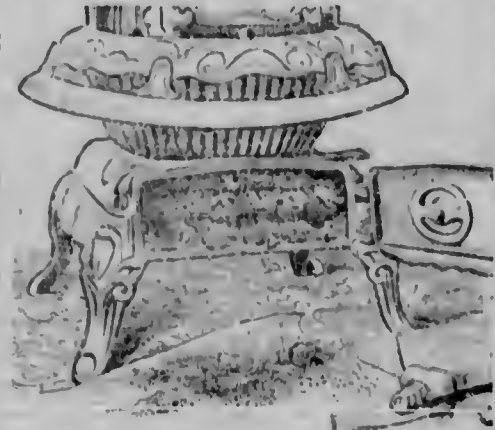

Our method is the only clean way. The whole broom, turkey wigg and dust cloth are dispensed with. There are no joints to leak air, base heat is not retarded and Cole's Hot Blast is the cleanest stove, the best floor heater and the only stove in the world which can be guaranteed to remain always air-tight.

SMOKE PROOF

The feed door on this stove is guaranteed smoke proof and does away with the escape of smoke, soot and gas into the house. Side feed doors used on other stoves discharge a cloud of gas and soot-laden smoke into the house, and scatter soot and a mass over the carpet when opened.

Are her points: In feeding coal into a side feed door, it has to be thrown into the stove, which results in scattering much of it over the floor. With our cleanly smoke proof feed door the coal is poured into the stove even to the dust in the bottom of the feed without a particle being spilled on the floor.

This clean and economical stove burns the gases which often escape into the rooms with other stoves. The annoyance and dirt from kindling new fires is dispensed with, as the rooms are heated up for two or three hours each morning with the fuel put in the night before and the fire is never out. COLE'S ORIGINAL, HOT BLAST is the cleanest stove made and will more than save its cost in fuel each winter.

STILL GROWING

Demand for Payne Remedies Con-
tinues to Increase.

Although Payne Remedies were introduced in Paducah a short time ago it is today outselling all other medicines for the cure of Liver, Kidney and Stomach Troubles.

Payne declares that fully 25 per cent of the people of this climate are afflicted with Catarrh in some of its various forms.

Thousands of men and women have filled untimely graves, victims of catarrhal poison, who never knew they were suffering from this terrible disease. He explained how constipation and colds filled the blood with catarrhal mucus, the membranes of the nasal cavities and air passages become inflamed, followed by ulceration, the poison mucus dropped in to the throat, the lungs became affected, and where there should be

health, strength and vigor, came weakness, consumption, wasting diseases and early decay, because there was not sufficient vitality in the impoverished system to resist the poison.

Mr. F. Callingham, of Clarksburg, a prominent merchant, said: "I have had catarrh for over two years. I had a dull headache. My head was always stopped up and the nasal passages inflamed and sore. The mucus would drop in my throat and I would cough up chunks of phlegm. I felt bad all the time. I have taken two bottles of New Discovery and I feel like a new man. The headaches are all gone, my head is clear and I am feeling better in every way."

Mr. Davy says: "I had bad breath, my kidneys and stomach were in a terrible condition, back lame and weak, my food seemed to sour on my stomach; I would bloat and belch wind, often getting dizzy, also suffering with chronic constipation. I used New Discovery a few days and it expelled a tapeworm 72 feet long from my stomach. Now I feel like a new man. My food digests perfectly, my system is in fine shape."

It is very interesting to stand for a few moments in the crowd and listen to the conversation of the different types of humanity. One out of every two is either taking the medicine or has come to obtain some, because they have had direct proof of the power of the remedy through some friend or neighbor. On every side can be heard people telling of the remarkable cures which they themselves have witnessed of people who have been restored to health in a short time by the use of Payne's New Discovery. In some parts of the city will be people repeating their experiences to eager listeners telling of their conditions before purchasing the remarkable remedy and of the immediate benefit they received from its use. Here will be a happy mother telling how one of her children has been ill for a number of years despite all that could be done for the child, and that finally the New Discovery had been the means of almost miraculously putting the little one on the high road to health and happiness.

In other parts of the city will be some one telling of an unusual case of some neighbor who they had known intimately all their life, and who had always been a sufferer, and who was once not able to attend to his or her duties owing, all their health to Payne's New Discovery. No wonder the people are obtaining the remedies in enormous quantities.

He is creating excitement by curing deafness in five minutes, relieving all aches and pains by applying Quick Relief Linctament. Cures cholera morbus, cholera infantum, dysentery, cramps, colic or any internal pain by taking it internally.

He is kept busy all day long supplying people with the remedies. Payne can be seen at Smith & Nage's, Fourth and Broadway, daily from 9 a. m. until 10 p. m.

Straight Talk to Women.

If Men Had to
Be Mothers

Alternately With Women, There
Would Never be More Than THREE
Children in a Family—Why?

It's a sad fact, that thousands of weak women suffer terrible tortures with every child they bear. No pain that is known will compare with that suffered by these poor women.

Men could never endure such terrible agony. It has been said that if they had to be mothers, alternately with their wives, the woman might have the first child, the husband the second, the wife the third—and then there would never be any more.

But, as we have stated, it is the WEAK woman who suffers such fearful pains at childbirth. Perfectly sexed, strong, healthy women, do not.

The Indian mother, on the trail, stops for an hour or so by a river or creek, and then starts on with the new papoose on her back, to catch up with the rest of the tribe, which has not even delayed its march to await her.
